| April 2021 | September 2022 | Sarah Comerford |

This document aims to give guidance on the progression of skills and knowledge across the year groups. It is used to support planning the year groups long term overviews that break up content into termly blocks. As children make progress through the school, it is expected that they can demonstrate a wider range of independent skills and knowledge in the 7 strands of maths across the curriculum. In maths, like in other subjects, we recognise the importance that a range of different teaching methods could be used in supporting pupils to know more, understand more and remember more. In maths we use the following approaches of small steps in learning to ensure that children build on previous learning, concrete equipment to support children to understand different processes and concepts, pictorial representations which build upon on the concrete and allow children to learn how to represent number in a variety of ways, written methods which use conceptual and procedural variation to extend children's thinking and problem solving and reasoning to develop children's verbal and written responses to solve different mathematical tasks. These will be evident in pupil discussion, observations and work in books in order that learning opportunities in maths are as effective as possible and that pupils make progress

| Strand | $\begin{gathered} \hline \text { EYFS } \\ \text { ELG } \end{gathered}$ | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Number and Place Value |  |  |  |  |  |  |  |
| Vocabulary | one, two, three ... <br> to twenty and beyond teens numbers, eleven, twelve ... twenty none how many ...? count, ones, twos, fives, tens is the same as more, less odd, even few pattern pair ones tens digit the same number as, as many as more, larger, bigger, greater fewer, smaller, less fewest, smallest, least most, biggest, largest, greatest one more, ten more one less, ten less compare order size first, second, third... twentieth | Number <br> Zero, one, two, three <br> to twenty, and beyond <br> None <br> Count <br> Before, after <br> More, less, many, few, fewer, least, fewest, smallest, greater, lesser <br> Equal to, the same as <br> Odd, even <br> Units, ones, tens <br> Ten more/less <br> Digit <br> Numeral <br> Compare <br> Size <br> Value <br> Between, halfway <br> Above, below | Numbers to one hundred Hundreds Partition, recombine Hundred more/less | Numbers to one thousand | Tenths, hundredths Decimal (places) Round (to nearest) Thousand more/less than <br> Negative integers Roman numerals (I to C) | Powers of 10 | Numbers to ten million |

|  | last, last but one before, after guess how many ...? estimate nearly close to about the same as just over, just under too many, too few enough, not enough |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Counting | count objects, action and sounds <br> subitise - recognise the number of objects in a small group without needing to count them <br> count beyond 10 <br> Have a deep understanding of number to 10, including the composition of each number <br> Subitise (recognise quantities without counting) up to 5; <br> Verbally count beyond 20, recognising the pattern of the counting system; | count to and across 100, forwards and backwards, beginning with 0 or 1 , or from any given number <br> count, read and write numbers to 100 in numerals | count in steps of 2, 3 , and 5 from 0 , and in tens from any number, forward and backward | count from 0 in multiples of 4, 8, 50 and 100; <br> find 10 or 100 more or less than a given number. | count in multiples of $6,7,9,25$ and 1000 <br> find 1000 more or less than a given number <br> count backwards through zero to include negative numbers | Count forwards or backwards in steps of powers of 10 for any given number up to $1000000$ <br> Count forwards and backwards with positive and negative numbers, including through zero | continue to count forwards and backwards from any given number including positive and negative numbers, including through zero |
| Place Value | compare numbers <br> understand the 'one more than/one less than' relationship between | partition and combine numbers using apparatus if required e.g. partition 76 into tens and ones; combine 6 tens and 4 ones | recognise the place value of each digit in a two-digit number <br> compare and order numbers from 0 up | recognise the place value of each digit in a three-digit number <br> compare and order numbers up to 1000 | recognise the place value of each digit in a four-digit number <br> order and compare numbers beyond 1000 | Compare numbers to at least 1000000 and determine the value of each digit. <br> Interpret negative numbers in context. <br> Round any number up to | Order and compare numbers up to 10000000 and determine the value of each digit. <br> Round any whole number to a required degree of accuracy. |

|  | consecutive <br> numbers <br> explore the composition of numbers to 10 <br> Compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity; |  | to 100; use <, > and = signs <br> use place value and number facts to solve problems <br> partition two-digit numbers into different combinations of tens and ones using apparatus if needed e.g. 23 is the same as 2 tens and 3 ones which is the same as 1 ten and 13 ones <br> recall the multiples of 10 below and above any given 2digit number e.g. say that for 67 the multiples are 60 and 70 | Know that 10 tens are equivalent to 1 hundred, and that 100 is 10 times the size of 10 ; apply this to identify and work out how many 10s there are in other three-digit multiples of 10 . | round any number to the nearest 10, 100 or 1000 <br> Know that 10 hundreds are equivalent to 1 thousand, and that 1,000 is 10 times the size of 100 ; apply this to identify and work out how many 100s there are in other four- | $\begin{array}{rl} 1000 & 000 \text { to the nearest: } \\ - & 10 \\ - & 100 \\ - & 1000 \\ - & 10,000 \\ - & 100,000 \end{array}$ | Use negative numbers in context, and calculate intervals across zero. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Representing Number | link the number symbol (numeral) with its cardinal number value | identify and represent numbers using objects and pictorial representations including the number line, \& use language of: equal to, more than, less than (fewer), most, least <br> read and write numbers from 1 to 20 in numerals and words | identify, represent and estimate numbers using different representations, including the number line <br> read and write numbers to at least 100 in numerals and in words | identify, represent and estimate numbers using different representations <br> read and write numbers up to 1000 in numerals and in words | identify, represent and estimate numbers using different representations <br> read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value | Read, write (order and compare) numbers to at least 1000000 and determine the value of each digit. <br> Read Roman numerals to 1000 and recognize years written in Roman numerals. | Read, write (order and compare) numbers up to 10 000000 and determine the value of each digit. |
| Addition and Subtraction |  |  |  |  |  |  |  |
| Vocabulary | add, more, and make, sum, total altogether double one more, two more ... ten more how many more to | Number bonds, number line Add, more, plus, make, sum, total, altogether Inverse Double, near double | addition add, more, and make, sum, total altogether double near double half, halve one more, two more ... | addition add, more, and make, sum, total altogether double near double half, halve one more, two more ... | addition add, more, and make, sum, total altogether double near double half, halve one more, two more... ten more... | addition add, more, and make, sum, total altogether double near double half, halve one more, two more ... ten more ... one hundred more how many more to | addition add, more, and make, sum, total altogether double near double half, halve one more, two more ... ten more ... one hundred more how many more to |

|  | make ...? how many more is ... than ...? how much more is ...? take away how many are left/left over? how many have gone? one less, two less, ten less ... how many fewer is ... than ...? how much less is ...? difference between | Half, halve <br> Equals, is the same as (including equals sign) Difference between How many more to make..? How many more is...than..? How much more is..? <br> Subtract, take away, minus <br> How many fewer is...than..? How much less is..? | ten more ... one hundred more how many more to make ...? how many more is ... than ...? how much more is ...? subtract take away how many are left/left over? how many have gone? one less, two less, ten less ... one hundred less how many fewer is ... than ...? <br> how much less is ...? difference between equals is the same as number bonds/pairs/facts tens boundary | ten more ... one hundred more how many more to make ...? how many more is ... than ...? how much more is ...? <br> subtract take away how many are left/left over? how many have gone? one less, two less, ten less ... one hundred less how many fewer is ... than ...? how much less is ...? <br> difference between equals is the same as number bonds/pairs/facts missing number tens boundary, hundreds boundary | one hundred more how many more to make ...? how many more is ... than ...? how much more is ...? subtract take away how many are left/left over? how many have gone? one less, two less, ten less ... one hundred less how many fewer is ... than ...? how much less is ...? difference between equals is the same as number bonds/pairs/facts missing number tens boundary, hundreds boundary inverse | make ...? how many more is ... than ...? how much more is ...? <br> subtract take away how many are left/left over? how many have gone? one less, two less, ten less ... one hundred less how many fewer is ... than ...? how much less is ...? difference between equals is the same as number bonds/pairs/facts missing number tens boundary, hundreds boundary, ones boundary, tenths boundary inverse | make ...? how many more is ... than ...? how much more is ...? <br> subtract take away how many are left/left over? how many have gone? <br> one less, two less, ten less ... one hundred less how many fewer is ... than ...? how much less is ...? <br> difference between equals is the same as number bonds/pairs/facts missing number tens boundary, hundreds boundary, ones boundary, tenths boundary inverse |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Number Facts | automatically recall number bonds for numbers 0-5 and some to 10 <br> Automatically recall (without reference to rhymes, counting or other aids) number bonds up to 5 (including subtraction facts) and some number bonds to 10, including double facts. <br> Explore and represent patterns within numbers up | given a number, identify one more and one less <br> recall at least four of the six number bonds for 10 and reason about associated facts (e.g. $6+4=10$, therefore $4+6=10$ and $10-6=4$ ) <br> represent and use number bonds and related subtraction facts within 20 <br> Develop fluency in addition and subtraction facts within 10. | recall all number bonds to and within 10 and use these to reason with and calculate bonds to and within 20 , recognising other associated additive relationships <br> recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100 <br> recall doubles and halves to 20 e.g. knowing that double 2 is 4 , | Continue to use number bonds to solve problems involving three digit numbers <br> Secure fluency in addition and subtraction facts that bridge 10, through continued practice. | Continue to use number bonds to solve problems involving four-digit numbers | Continue to use number bonds to solve problems involving four-digit numbers and beyond | Continue to use number bonds to solve problems involving four-digit numbers and beyond |

|  | to 10, including evens and odds, double facts and how quantities can be distributed equally. |  | double 5 is 10 and half of 18 is 9 <br> Secure fluency in addition and subtraction facts within 10, through continued practice. |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Working Mentally | Compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity; | add and subtract onedigit and two-digit numbers to 20, including zero | add and subtract numbers using concrete objects, pictorial representations, and mentally, including: a twodigit number and ones, tens, another two-digit number and 3 one digit numbers. <br> show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot | add and subtract numbers mentally, including: threedigit number and ones, three-digit and tens, threedigit number and hundreds | add and subtract numbers mentally, including: four-digit number and ones, four-digit and tens, four-digit number and hundreds | Use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy. | continue to use taught methods to mentally add and subtract within a range of contexts, using rounding and estimation to check |
| Written Representation | begin to mark make to represent numbers | read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs <br> demonstrate an understanding of the commutative law (e.g. $3+2=5$, therefore $2+$ $3=5$ ) <br> demonstrate an understanding of | add and subtract numbers using concrete objects, pictorial representations, and mentally, including: a twodigit number and ones, tens, another two-digit number and 3 one digit numbers. <br> show that addition of two numbers can | add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction | add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate | Add and subtract whole numbers with more than 4 digits, including using formal written methods. <br> Add and subtract numbers mentally with increasingly large numbers. | Perform mental calculations, including with mixed operations and large numbers. <br> Use their knowledge of the order of operations to carry out calculations involving the four operations. |

|  |  | inverse relationships involving addition and subtraction (e.g. if $3+$ $2=5$, then $5-2=3$ ) | be done in any order <br> (commutative) and subtraction of one number from another cannot <br> recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems. |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Problem Solving and Reasoning |  | solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as $7=$ $\square-9$. | solve problems with <br> addition and <br> subtraction, using <br> concrete, pictorial <br> and abstract <br> representations <br> use estimation to check that his/her answers to a calculation are reasonable e.g. knowing that $48+$ 35 will be less than 100 | estimate the answer to a calculation and use inverse operations to check answers <br> solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction | estimate and use inverse operations to check answers to a calculation <br> solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why | Solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why. <br> Solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign. | Solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why. |

| Vocabulary | sharing doubling halving number patterns | multiplication multiply multiplied by multiple division dividing grouping sharing doubling halving array number patterns | multiplication multiply multiplied by multiple groups of times once, twice, three times ... ten times repeated addition division dividing, divide, divided by, divided into grouping sharing, share, share equally left, left over one each, two each, three each ... ten each group in pairs, threes..., tens equal groups of doubling halving array row, column number patterns multiplication table multiplication fact, division fact | multiplication multiply multiplied by multiple, factor groups of times product once, twice, three times ... ten times repeated addition division dividing, divide, divided by, divided into left, left over, remainder grouping sharing, share, share equally one each, two each, three each ... ten each group in pairs, threes ... tens equal groups of halving array row, column number patterns multiplication table multiplication fact, division fact | multiplication multiply multiplied by multiple, factor groups of times product once, twice, three times ... ten times repeated addition division dividing, divide, divided by, divided into left, left over, remainder grouping sharing, share, share equally one each, two each, three each ... ten each group in pairs, threes ... tens equal groups of doubling halving array row, column multiplication fact, division fact inverse square, squared cube, cubed | multiplication multiply multiplied by multiple, factor groups of times product once, twice, three times ... ten times repeated addition division dividing, divide, divided by, share equally one each, two each, three each ... ten each group in pairs, threes ... tens equal groups of doubling halving array row, column number patterns multiplication table multiplication fact, division fact | multiplication multiply multiplied by multiple, factor groups of times product once, twice, three times ... ten times repeated addition division dividing, divide, divided by, divided into left, left over, remainder grouping sharing, share, share equally one each, two each, three each ... ten each group in pairs, threes ... tens equal groups of doubling halving array row, column number patterns multiplication table multiplication fact, |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Number Facts | Automatically recall (without reference to | count forwards and backwards in multiples of twos, fives and tens | recall and use multiplication and division facts for the 2,5 and 10 | recall and use multiplication and division facts for the 3,4 and 8 | recall multiplication and division facts for multiplication tables up to $12 \times 12$ | continue to apply placevalue knowledge to known additive and multiplicative | continue to apply place-value knowledge to known additive and multiplicative number facts (scaling facts by 100) |

|  | rhymes, counting or other aids) number bonds up to 5 (including subtraction facts) and some number bonds to 10, including double facts. |  | multiplication tables, including recognising odd and even numbers <br> use multiplication and division facts for 2,5 and 10 to make deductions outside known multiplication facts e.g. know that multiples of 5 have one digit of 0 or 5 and use this to reason that $18 \times 5$ cannot be 92 as it is not a multiple of 5 | multiplication tables <br> Divide 100 into 2, 4,5 and 10 equal parts, and read scales/number lines marked in multiples of 100 with $2,4,5$ and 10 equal parts. <br> Apply place-value knowledge to known additive and multiplicative number facts (scaling facts by 10). | Divide 1,000 into 2, 4, 5 and 10 equal parts, and read scales/number lines marked in multiples of 1,000 with $2,4,5$ and 10 equal parts. <br> Apply place-value knowledge to known additive and multiplicative number facts (scaling facts by 100) | number facts (scaling facts by 100) |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Working Mentally | Explore and represent patterns within numbers up to 10 , including evens and odds, double facts and how quantities can be distributed equally. | count in multiples of twos, fives and tens | calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (x), division ( $\div$ ) and equals (=) signs | write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental methods | use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1 ; dividing by 1 ; multiplying together three numbers <br> recognise and use factor pairs and commutativity in mental calculations | Identify multiples and factors, including finding all the factor pairs of a number, and common factors of two numbers. <br> Know and use the vocabulary of prime numbers, prime factors and composite numbers. <br> Establish whether a number up to 100 is prime and recall prime numbers up to 19 . <br> Recognize and use square numbers and cube numbers, and the notation for squared and cubed. | Identify common factors, common multiples and prime numbers. <br> Use estimation to check answers to calculations and determine, in the context of a problems. An appropriate degree of accuracy. <br> Perform mental calculations, including with mixed operations and large numbers. |
| Written Representation | begin to mark make to represent numbers | use concrete objects, pictorial representations and arrays with the support of the teacher. | Use arrays, repeated addition and multiplication and division sentences <br> recognise the relationships between addition | write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers | multiply two-digit and three-digit numbers by a one-digit number using formal written layout | Multiply numbers up to 4 digits by a one or two-digit number using a formal written method, including long multiplication for twodigit numbers. | Multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication. <br> Divide numbers up to 4 digits by a two-digit whole number using the formal written |

|  |  |  | and subtraction and rewrite addition statements as simplified multiplication statements e.g. $10+$ $\begin{aligned} & 10+10+5+5=3 \times \\ & 10+2 \times 5=4 \times 10 \end{aligned}$ | times one-digit numbers, using mental methods |  | Multiply and divide numbers mentally drawing upon known facts. <br> Divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context. <br> Multiply and divide whole numbers and those involving decimals by 10,100 and 1000. | method of long division, and interpret remainders as whole number remainders, fractions, or by rounding as appropriate. <br> Divide numbers up to 4 digits by a two-digit number using the formal written method of short division, interpreting reminders according to the context. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Problem Solving and Reasoning |  | solve one-step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher. | show that <br> multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot <br> solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts <br> solve word problems involving multiplication and division with more than one step e.g. which has the most biscuits, 4 packets of biscuits with 5 in each packet or 3 | solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which n objects are connected to $m$ objects. | solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects | Solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes. <br> Solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates. | Solve problems involving addition, subtraction, multiplication and division. |

|  |  |  | with 10 in each packet |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Combined Operations |  | Begin to develop their understanding of the four operations | continue to develop their understanding of the four operations and begin to link addition and multiplication, subtraction and division | continue to develop their understanding of the four operations and link addition and multiplication, subtraction and division with increasing accuracy | continue to use their understanding of the four operations and link addition and multiplication, subtraction and division with increasing accuracy | Solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding of the equals sign. | Use their knowledge of the order of operations to carry out calculations involving the four operations. |
| Fractions |  |  |  |  |  |  |  |
| Vocabulary | parts of a whole half | fraction equal part equal grouping equal sharing parts of a whole half one of two equal parts quarter one of four equal parts | fraction equivalent fraction mixed number numerator, denominator equal part equal grouping equal sharing parts of a whole half, two halves one of two equal parts quarter, two quarters, three quarters one of four equal parts one third, two thirds one of three equal parts | fraction equivalent <br> fraction mixed number numerator, denominator equal part equal grouping equal sharing parts of a whole half, two halves one of two equal parts quarter, two quarters, three quarters one of four equal parts one third, two thirds one of three equal parts sixths, sevenths, eighths, tenths | fraction equivalent fraction mixed number numerator, denominator equal part equal grouping equal sharing parts of a whole half, two halves one of two equal parts quarter, two quarters, three quarters one of four equal parts one third, two thirds one of three equal parts sixths, sevenths, eighths, tenths ... hundredths decimal, decimal fraction, decimal point, decimal place, decimal equivalent proportion | fraction, proper/improper fraction equivalent fraction mixed number numerator, denominator equivalent, reduced to, cancel equal part equal grouping equal sharing parts of a whole half, two halves one of two equal parts quarter, two quarters, three quarters one of four equal parts one third, two thirds one of three equal parts sixths, sevenths, eighths, tenths ... <br> hundredths, thousandths decimal, decimal fraction, decimal point, decimal place, decimal equivalent proportion, in every, for every percentage, per cent, \% | numerator, denominator equivalent, reduced to, cancel equal part equal grouping equal sharing parts of a whole half, two halves one of two equal parts quarter, two quarters, three quarters one of four equal parts one third, two thirds one of three equal parts sixths, sevenths, eighths, tenths ... hundredths, thousandths decimal, decimal fraction, decimal point, decimal place, decimal equivalent proportion, in every, for every ratio percentage, per cent, \% |
| Recognising fractions | Explore and represent patterns within numbers up to 10 , including evens and odds, double facts and how quantities can | recognise, find and name a half as one of two equal parts of an object, shape or quantity <br> recognise, find and name a quarter as one | recognise, find, name and write fractions $1 / 3,1 / 4$, $2 / 4$ and $3 / 4$ of a length, shape, set of objects or quantity | count up and down in tenths; <br> recognise that tenths arise from dividing an object into 10 equal parts and in dividing one- | count up and down in hundredths; <br> recognise that hundredths arise when dividing an object by one | Identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths. <br> Recognise mixed numbers and improper fractions and | continue to identify, name and write equivalent and mixed number fractions, converting from one to another. |

|  | be distributed equally. | of four equal parts of an object, shape or quantity. |  | digit numbers or quantities by 10 | hundred and dividing tenths by ten. | convert from one to the other. |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Comparing and ordering fractions | Compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity; | identify and represent numbers using objects and pictorial representations including the number line, \& use language of: equal to, more than, less than (fewer), most, least <br> recognise and name halves and quarters | compare and order numbers from 0 up to 100; use <, > and = signs <br> recognise, find, name and write fractions $1 / 3,1 / 4$, $2 / 4$ and $3 / 4$ of a length, shape, set of objects or quantity | compare and order unit fractions, and fractions with the same denominators <br> recognise and show, using diagrams, equivalent fractions with small denominators | recognise and show, using diagrams, families of common equivalent fractions | Compare and order fractions whose denominators are all multiples of the same number. | Use common factors to simplify fractions. <br> Use common multiples to express the fractions in the same denomination. <br> Compare and order fractions, including fractions $>1$. |
| Finding fractions of shapes and quantities | Explore and represent patterns within numbers up to 10 , including evens and odds, double facts and how quantities can be distributed equally. | recognise, find and name a half as one of two equal parts of an object, shape or quantity <br> recognise, find and name a quarter as one of four equal parts of an object, shape or quantity. | recognise, find, name and write fractions $1 / 3,1 / 4$, $2 / 4$ and $3 / 4$ of a length, shape, set of objects or quantity | recognise, find and write fractions of a discrete set of objects: unit fractions and nonunit fractions with small denominators <br> recognise and use fractions as numbers: unit fractions and nonunit fractions with small denominators | solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number | continue to solve problems of increasing difficulty to calculate quantities with increasing accuracy | continue to solve problems of increasing difficulty to calculate quantities with increasing accuracy |
| Written fractions | begin to mark make to represent numbers <br> Explore and represent patterns within numbers up to 10 , including evens and odds, double facts and how quantities can be distributed equally. | read, write and interpret mathematical statements <br> use concrete objects, pictorial representations and arrays with the support of the teacher. | write simple fractions for example, $1 / 2$ of $6=$ 3 and recognise the equivalence of $2 / 4$ and $1 / 2$. | add and subtract fractions with the same denominator within one whole [for example, $5 / 7+$ $1 / 7=6 / 7$ ] | add and subtract fractions with the same denominator | Add and subtract fractions with the same denominator and denominators that are multiples of the same number. <br> Multiply proper fractions by whole numbers, supported by materials and diagrams. | Add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions. <br> Multiply simple pairs of proper fractions, writing the answer in its simplest form. |

| Decimals as fractional amounts |  |  |  | record 1/10 as 0.1, $3 / 10$ as 0.3 etc. | recognise and write decimal equivalents of any number of tenths or hundredths <br> recognise and write decimal equivalents to $1 / 4,1 / 2$ and $3 / 4$ <br> find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as ones, tenths and hundredths | Read and write decimal numbers as fractions. <br> Recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents. | continue to use knowledge of fractions and decimals to write them as equivalents |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Ordering decimals | Compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity; | identify and represent numbers using objects and pictorial representations including the number line, \& use language of: equal to, more than, less than (fewer), most, least | compare and order numbers from 0 up to 100; use <, > and = signs | compare and order numbers up to 1000 | round decimals with one decimal place to the nearest whole number <br> compare numbers with the same number of decimal places up to two decimal places | Round decimals with two decimal places to the nearest whole number and to one decimal place. <br> Read, write, order and compare numbers with up to three decimal places. | Identify the value of each digit in numbers given to three decimal numbers. |
| Recognise and Write Decimals |  |  |  | Recognise and write decimal equivalence of any number of tenths or hundredths. | Read and write decimal numbers as fractions. <br> Recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents. | Identify the value of each digit in numbers given to three decimal places. |  |
| Compare Decimals | Compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or | identify and represent numbers using objects and pictorial representations including the number line, \& use language of: equal to, more | compare and order numbers from 0 up to 100; use <, > and = signs | Round decimals with one decimal place to the nearest whole number. <br> Compare numbers with the same | Round decimals with two decimal places to the nearest whole number and to one decimal place. |  |  |

|  | the same as the other quantity; | than, less than (fewer), most, least |  | number of decimal places up to two decimal places. | Read, write, order and compare numbers with up to three decimal places. |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Problem solving and reasoning | Compare <br> quantities up to 10 <br> in different <br> contexts, <br> recognising when one <br> quantity is greater than, less than or the same as the other quantity; | solve one-step <br> problems that involve <br> addition and <br> subtraction <br> solve one-step <br> problems involving <br> multiplication and division | solve problems with addition and subtraction solve problems involving multiplication and division, including word problems | solve problems using all fraction knowledge | solve simple measure and money problems involving fractions and decimals to two decimal places | Solve problems up to three decimal places. | Multiply and divide numbers by 10,100 and 1000 giving answers up to three decimal places. <br> Multiply one-digit numbers with up to two decimal places by whole numbers. <br> Use written division methods in cases where the answer has up to two decimal places. <br> Solve problems which require answers to be rounded to specified degrees or accuracy. |
| Fractions, Decimals and Percentages |  | recognise and name halves and quarters | recognise, find, name and write fractions $1 / 3,1 / 4$, $2 / 4$ and $3 / 4$ of a length, shape, set of objects or quantity | recognise, find and write fractions of a discrete set of objects: unit fractions and nonunit fractions with small denominators <br> Recognise and write decimal equivalence of any number of tenths or hundredths. | Read and write decimal numbers as fractions. | Recognise the percent symbol and understand that percent relates to 'number of parts per hundred'. <br> Write percentages as a fraction with the denominator 100, and as a decimal. <br> Solve problems which require knowing percentage and decimal equivalents. | Associate a fraction with a division and calculate decimal fraction equivalents. <br> Recall equivalences between simple fractions, decimals and percentages. |
| Ratio and Proportion | Compare <br> quantities up to 10 <br> in different <br> contexts, <br> recognising when one <br> quantity is greater than, less than or the same as the other quantity; | recognise, find and name a half as one of two equal parts of an object, shape or quantity <br> recognise, find and name a quarter as one of four equal parts of an object, shape or quantity. | recognise, find, name and write fractions $1 / 3,1 / 4$, $2 / 4$ and $3 / 4$ of a length, shape, set of objects or quantity | recognise, find and write fractions of a discrete set of objects: unit fractions and nonunit fractions with small denominators <br> recognise and use fractions as numbers: unit fractions and non- | solve simple measure and money problems involving fractions and decimals to two decimal places | Solve problems which require knowing percentage and decimal equivalents. | Solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts. <br> Solve problems involving the calculation of percentages and the use of percentages for comparison |

|  |  |  |  | unit fractions with small denominators |  |  | Solve problems involving similar shapes where the scale factor is known or can be found. <br> Solve problems involving unequal sharing and grouping using knowledge of fractions and multiples. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Algebra |  |  |  |  |  |  |  |
| Vocabulary |  |  |  |  |  |  | formula, formulae equation unknown variable |
| Algebraic Thinking |  | Solve one-step problems that involve addition, using concrete objects and pictorial representations and missing number problems. | Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems. | Solve problems including missing number problems. | continue to solve missing number problems involving a range of operations and complexity | continue to solve missing number problems involving a range of operations and complexity | continue to solve missing number problems involving a range of operations and complexity |
| Algebraic Notation |  |  |  |  |  |  | Use simple formulae. <br> Generate and describe linear number sequences. <br> Express missing number problems algebraically. <br> Find pairs of numbers that satisfy an equation with two unknowns. <br> Enumerate possibilities of combinations of two variables. |
| Measurement |  |  |  |  |  |  |  |

| Measures | compare length, weight and capacity | compare, describe and solve practical problems for: length/height, weight/mass, capacity/volume \& time <br> measure and begin to record length/height, weight/mass, capacity/volume \& time | choose and use appropriate standard units to estimate and measure length/height ( $\mathrm{m} / \mathrm{cm}$ ); mass (kg/g); temperature $\left({ }^{\circ} \mathrm{C}\right)$; capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels <br> compare and order lengths, mass, | measure, compare, add and subtract: lengths ( $\mathrm{m} / \mathrm{cm} / \mathrm{mm}$ ); mass (kg/g); volume/capacity (l/ml) <br> measure the perimeter of simple 2-D shapes | convert between different units of measure <br> estimate, compare and calculate different measures, including money in pounds and pence <br> measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres | Convert between different units of metric measure. <br> Understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints. <br> Use all four operations to solve problems involving measures using decimal notation, including scaling. | Solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate. <br> Use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal places. <br> Convert between miles and kilometers. |

|  |  |  | volume/capacity and record the results using >, < and = <br> read scales in divisions of ones, twos, fives and tens <br> read scales where not all numbers on the scale are given and estimate points in between |  | find the area of rectilinear shapes by counting squares |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Money |  | recognise and know the value of different denominations of coins and notes | recognise and use symbols for pounds ( $£$ ) and pence (p) <br> combine amounts to make a particular value <br> find different combinations of coins that equal the same amounts of money <br> solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change | add and subtract amounts of money to give change, using both f and p in practical contexts | estimate, compare and calculate different measures, including money in pounds and pence | Use all four operation to solve problems involving measure (for example, money). | continue to solve a variety of different problems that include measure/money |
| Time | Comment on images of familiar situations in the past. <br> Compare and contrast characters from stories, | compare, describe and solve practical problems for time e.g. quicker, slower, earlier, later sequence events in chronological order | compare and sequence intervals of time <br> tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock | tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24hour clocks | convert between different units of measure (e.g. Hours to minutes) <br> read, write and convert time between analogue and digital | Solve problems involving converting between units of time | Use, read, write and convert between standard units, converting measurements of time from a smaller unit of measure to a larger unit, and vice versa |

|  | including figures from the past. | recognise and use language relating to dates, including days of the week, weeks, months and years <br> tell the time to the hour and half past the hour and draw the hands on a clock face to show these times | face to show these times <br> know the number of minutes in an hour and the number of hours in a day <br> read the time on a clock to the nearest 15 minutes | estimate and read time with increasing accuracy to the nearest minute <br> record and compare time in terms of seconds, minutes and hours <br> use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight <br> know the number of seconds in a minute and the number of days in each month, year and leap year <br> compare durations of events | 12- and 24-hour clocks <br> solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  | Geometry |  |  |  |
| Vocabulary | shape, pattern flat curved, straight round hollow, solid sort make, build, draw size, corner, side rectangle (including square) circle triangle, position over, under above, below top, bottom, side on, in outside, | shape, pattern <br> flat, curved, straight <br> round <br> hollow, solid sort <br> make, build, draw size <br> bigger, larger, smaller <br> symmetry, <br> symmetrical, <br> symmetrical pattern <br> pattern, repeating <br> pattern match, corner, <br> side point, pointed <br> rectangle (including <br> square) circle triangle, <br> face, edge, vertex, <br> vertices cube, cuboid <br> pyramid sphere cone | shape, pattern outside, inside <br> flat <br> around curved, straight in front, behind round front, back hollow, solid beside, next to sort opposite make, build, draw apart surface between size middle, edge | above, below top, bottom, side on, in outside, inside around in front, behind front, back beside, next to opposite apart between middle, edge centre corner direction journey, route left, right up, down higher, lower forwards, backwards, sideways across | shape, pattern flat, line curved, straight round hollow, solid sort make, build, construct, draw, sketch perimeter centre surface | curved, straight round hollow, solid sort make, build, construct, draw, sketch perimeter centre, radius, diameter surface angle, right-angled congruent base, squarebased size bigger, larger, smaller symmetry, symmetrical, symmetrical pattern line symmetry reflect, reflection axis of symmetry, reflective symmetry pattern, repeating pattern match regular, irregular | hollow, solid sort make, build, construct, draw, sketch perimeter centre, radius, diameter circumference, concentric, arc net, open, closed surface angle, rightangled congruent intersecting, intersection plane base, square-based size bigger, larger, smaller symmetry, symmetrical, symmetrical pattern line symmetry reflect, reflection axis of symmetry, reflective symmetry pattern, repeating pattern match |

|  | inside around, in front, behind front, back beside, next to opposite apart between middle, edge corner direction left, right up, down forwards, backwards, sideways across, next to, close, near, far along through to, from, towards, away from movement, slide roll turn stretch, bend whole turn, half turn | cylinder position over, under, underneath above, below top, bottom, side on, in outside, inside around in front, behind front, back beside, next to opposite apart between middle, edge centre corner direction journey left, right up, down forwards, backwards, sideways across next to, close, near, far along through to, from, towards, away from movement slide roll turn stretch, bend whole turn, half turn, quarter turn, three-quarter turn | bigger, larger, smaller <br> centre <br> symmetry, <br> symmetrical, <br> symmetrical pattern <br> corner <br> line symmetry <br> direction <br> pattern, repeating <br> pattern journey, <br> route <br> match <br> left, right | next to, close, near, far along through to, from, towards, away from clockwise, anticlockwise compass point north, south, east, west, N, S, E, W horizontal, vertical, diagonal movement slide roll turn stretch, bend whole turn, half turn, quarter turn, three-quarter turn angle ... is a greater/smaller angle than right angle acute angle obtuse angle straight line |  |  | regular, irregular |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Shape vocabulary |  | recognise and name common 2-D shapes (e.g. Square, circle, triangle) recognise and name common 3-D shapes (e.g. Cubes, cuboids, pyramids \& spheres) | identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line <br> identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces | identify horizontal and vertical lines and pairs of perpendicular and parallel lines | continue to use the correct vocabulary when describing shapes | continue to use the correct vocabulary when describing shapes | continue to use the correct vocabulary when describing shapes |

| Properties of 2-d shape | select, rotate and manipulate shapes to develop spatial reasoning skills <br> compose and decompose shapes so that children recognise a shape can have other shapes within it, just as numbers can | recognise and name common 2-D shapes (e.g. Square, circle, triangle) | identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line. <br> compare and sort common 2-D and 3- <br> D shapes and everyday objects. | draw 2-D shapes <br> recognise angles as a property of shape or a description of a turn <br> identify whether angles are greater or less than right angle | compare and classify geometric shapes, including quadrilaterals and triangles, based on properties and sizes <br> identify acute and obtuse angles and compare and order angles up to two right angles by size <br> identify lines of symmetry in 2-D shapes presented in different orientations <br> complete a simple symmetric figure with respect to a specific line of symmetry. <br> begin to recognise where angles are greater than two right angles. Know the term straight angle referring to two right angles together | Distinguish between regular and irregular polygons based on reasoning about equal sides and angles. <br> Use the properties of rectangles to deduce related facts and find missing lengths and angles. | Draw 2-D shapes using given dimensions and angles. <br> Compare and classify geometric shapes based on their properties and sizes. <br> Illustrate and name parts of a circle, including radius, diameter and circumference and know that the diameter is twice the radius. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Properties of 3-d shape | select, rotate and manipulate shapes to develop spatial reasoning skills <br> compose and decompose shapes so that children recognise a shape can have other shapes within it, just as numbers can | recognise and name common 3-D shapes (e.g. Cubes, cuboids, pyramids \& spheres) | identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces <br> identify 2-D shapes on the surface of 3D shapes. <br> compare and sort common 2-D and 3- | make 3-D shapes using modelling materials <br> recognise 3-D shapes in different orientations and describe them | identify acute and obtuse angles and compare and order angles up to two right angles by size <br> begin to recognise where angles are greater than two right angles. Know the term straight angle referring to two right angles together | Identify 3-D shapes, including cubes and other cuboids from 2-D representations. | Recognise, describe and build simple 3-D shapes, including making nets. |

|  |  |  | D shapes and everyday objects. |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Position and direction | continue, copy and create repeating patterns | describe position, direction and movement, including whole, half, quarter and three-quarter turns | order and arrange combinations of mathematical objects in patterns and sequences Use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anticlockwise) | identify right angles, recognise that two right angles make a half turn, three make three quarters of a turn and four a complete turn | describe positions on a 2-D grid as coordinates in the first quadrant describe movements between positions as translations of a given unit to the left/right and up/down <br> plot specified points and draw sides to complete a given polygon | Know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles. <br> Draw given angles, and measure them in degrees. <br> Identify angles at a point and one whole turn, angles at a point on a straight line and half a turn, other multiples of $90^{\circ}$ <br> Identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed. | Find unknown angles in any triangles, quadrilaterals, and regular polygons. <br> Recognize angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles. <br> Describe positions on the full coordinate grid. <br> Draw and translate simple shapes on the coordinate plane, and reflect them in the axes. |
| Statistics |  |  |  |  |  |  |  |
| Vocabulary | count, sort group, set list | count, sort, vote group, set list, table | graph, block graph, pictogram represent group, set list, table label, title most popular, most common least popular, least common |  | count, tally, sort, vote survey, questionnaire, data graph, block graph, pictogram represent group, set list, table, chart, bar chart, frequency table Carroll diagram, Venn diagram label, title, axis, axes diagram most popular, most common least popular, least common | count, tally, sort, vote survey, questionnaire, data, database graph, block graph, pictogram represent group, set list, table, chart, bar chart, frequency table, bar line chart Carroll diagram, Venn diagram line graph label, title, axis, axes diagram most popular, most common least popular, least common maximum/minimum value outcome | count, tally, sort, vote survey, questionnaire, data, database graph, block graph, pictogram represent group, set list, table, chart, bar chart, frequency table, bar line chart Carroll diagram, Venn diagram line graph pie chart label, title, axis, axes diagram most popular, most common least popular, least common maximum/minimum |
| Interpreting data |  |  | interpret and construct simple pictograms, tally charts, block diagrams and simple tables | interpret and present data using bar charts, pictograms and tables | interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs | Complete, read and interpret information in tables, including timetables. | Interpret and construct pie charts and line graphs and use these to solve problems. |

| Using data |  |  | ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity <br> ask and answer questions about totalling and comparing categorical data | solve one-step and two-step questions [for example, ‘How many more?' and ‘How many fewer?'] using information presented in scaled bar charts and pictograms and tables | solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs | Solve comparison, sum and difference problems using information presented in a line graph. | Calculate and interpret the mean as an average. |
